

Measure E Bond Program COLUMBIA COLLEGE CAMPUS CONSTRUCTION UPDATE

UPDATES & ACTIVITIES THAT MAY IMPACT CAMPUS OPERATION

Week of July 13, 2015

Roadways Phase III

Work this week: On Saturday we will pave the road from the Manzanita intersection up to Public Safety along with the toll booth & entry to the facilities yard. This will cut off all main entry access to the Oak Pavilion, Symons Field and Manzanita building for the day. Rear access to Manzanita can be accomplished around the back of campus via Madrone Road. Access to Oak Pavilion and Symons Field can only be accomplished through the Emergency Access Road. Starting on Monday we will begin to install AC dikes along with raising utilities and begin striping work for our new roads.

Access:	Caution is advised when entering the site due to tripping hazards & construction related activities.
Noise:	Moderate to extreme noise could occur occasionally due to site related activities.
Parking:	Moderate impact as staff parking has been relocated to the Oak Pavilion Lot.
Dust:	Moderate impact due to site related construction activities.
Odors:	Low Impact.
Utilities:	None anticipated.

Asphalt finish in front of Juniper

Asphalt finish in front of Fir
