

WORK NOTICE

Field Activities

Yosemite Community College District

Modesto Junior College, West Campus

Modesto, California

August 2008

Si desea informacion en Espanol, comuniquese con Jesus Cruz, Especialista en Participacion Publica al (916) 255-3315 o sin costo al (866) 495-5651.

The Yosemite Community College District (YCCD), in cooperation with the Department of Toxic Substances Control (DTSC), will conduct an environmental investigation at the Modesto Junior College, West Campus (MJC-WC). The MJC-WC is located at 2201 Blue Gum Avenue in Modesto, California, on a former military installation known as Hammond General Hospital.

The YCCD plans to collect soil, soil vapor, and groundwater samples at various locations on the MJC-WC. Investigation work will begin on or about August 4, 2008, and may continue into October 2008. Field crews will use a variety of sampling devices, including water well drilling rigs, backhoes, and hand-operated sampling equipment. No contamination has been confirmed. However, the field crews may wear protective suits and equipment as a precaution.

To encourage community review and input, DTSC and the YCCD have established the following information repositories for these sites.

Modesto Junior College Library
East Campus
435 College Avenue
Modesto, CA 95350
Contact: Reference Librarian
Phone: (209) 575-6868
