

MEASURE E UPDATE

Update #2 ♦ August 31, 2005

ON THE WEB: www.yosemite.edu/bond/

STEERING COMMITTEE ACTION AT MJC AND COLUMBIA COLLEGE

Modesto Junior College

The MJC Measure E Coordinating Committee upcoming agenda topics are as follows:

- 9/13/05 Project Presentations: Student Services One-Stop Intake Center; Student Center East Remodel
- 9/20/05 Project Presentation: Science Community Center/Great Valley Museum

For more information on the MJC committees, please visit the President's Office website at <http://www.mjc.edu/president/>

Columbia College

At Columbia College, the Facilities Committee will serve as the steering committee for Columbia College projects. Beginning September 9th, this committee typically meets on the first Friday of each month during the school year (typically with the exception of January) at 11:30 am in the Manzanita Conference Room. Any suggestions or comments about Columbia College projects can be forwarded to the Columbia College President's Office. President Jim Riggs chairs the Facilities Committee.

MJC WEST SIDE EDUCATIONAL CENTER DECISION MAY BE COMING SOON

Two proposals being considered as a site for an MJC West Side Educational Center have made it to a second round of analysis. Both proposals are within the City of Patterson. One consisted of four options that range from a "build to suit" building, purchase of existing building, purchase of a building in design and land purchase. The other proposal includes donation of thirty acres of land and other off site improvements including an access street and joint use parking.

Kitchell Corporation provided an analysis of the two proposals to the Board of Trustees, at the Board's August 10, 2005 meeting. As a result of this presentation, staff was requested by the Board to present a second analysis of these site proposals to the Board's September 14, 2005 meeting based on a review of new submittals received. This analysis is based on a review of new submittals, which respond to YCCD desired educational building specifications and requirements within a budget constraint of \$5 million. Mr. Mark Newton of Kitchell Corporation and staff will present the report to the Board and receive direction as to which site to pursue.

CITIZENS' BOND OVERSIGHT COMMITTEE MEETING

The Measure E Citizens' Bond Oversight Committee's next meeting will be held October 5, 2005 from 6-7:00 p.m. at Columbia College in the community education classroom located in the Manzanita building. A tour of selected Phase 1 projects at Columbia College will precede the meeting. For more information, visit the oversight committee website at <http://www.yosemite.edu/bond/committee.asp>.

PROJECT PROGRESS

Modesto Junior College project presentations have been progressing well. Thus far, the Measure E Coordinating Committee has heard from 7 project groups. Columbia College quick start projects are underway, as survey work is complete on the Emergency Access Road and continuing on the service loop. Kitchell presented a Measure E update at both college Institute Days in August.
