

# YOSEMITE COMMUNITY COLLEGE DISTRICT

## Office of the Chancellor

### **Chancellor Goals 2021-2022**

1. Recognizing that the fiscal well-being of the District is intimately tied to FTES generation, and since FTES is often considered as an indicator of our service to the community-at-large, the Chancellor will work with the presidents and their teams to increase FTES at their respective institutions in achieving performance funding goals.
2. Recognizing the important linkage between instruction and student success, the Chancellor will work closely with the presidents and their teams to understand the instructional needs of the colleges, and challenges to student success, so that the Chancellor could support them in opening access to enrollment opportunities.
3. The Chancellor will work across the District to identify, incentivize, and implement financial efficiencies and provide financial support here necessary to promote student enrollment.
4. The Chancellor will seek opportunities for community and business partnerships aligning career pathways to meet the needs of the modern workforce and will continue his efforts to explore, support and initiate innovative programs that lead to attractive employment opportunities for students.
5. Coordinate annual district-wide strategic conversations, one at each campus, focused on innovative ways of attracting new students to both colleges.
6. The Chancellor will work to foster an invigorating and mutually respectful institutional culture of learning which welcomes all and serves all, upholding the core values of open discourse, academic freedom, and viewpoint diversity.
