Board Subcommittee

Trustees identified the need for broader community awareness in addressing the need for higher college going rates and success rates of students in the Central Valley. Trustees discussed ways to actively promote the District's colleges and successful student programs in our communities. The Board's desire to be proactive led to further discussion regarding the appointment of a Board subcommittee to work with the Chancellor to develop an action plan. That plan should include an ongoing process to allow Trustees to support student success initiatives and assist with the promotion of

our colleges as a viable and affordable higher education option. Board Chair Rojas identified four possible trustees to serve on this three member subcommittee: Paul Neumann, Linda Flores, Desirree Abshire and Anne DeMartini.

A motion was made by Trustee Dean and seconded by Trustee Flores that the Board of Trustees approve the formation of a Board Subcommittee to address the need for higher college going rates and success rates of students in the Central Valley; and that no more than three trustees work with the Chancellor to develop an action plan.
