Yosemite Community College District 2021 Redistricting
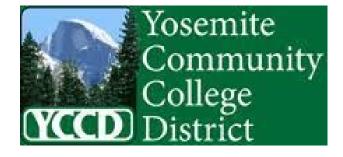

What is Redistricting

Definition

Redistricting is the process of adjusting district lines every 10 years after the release of the U.S. Census. The well-known examples are Congress and the legislature.

Within the U.S., redistricting has become an extremely politicized process and has been the subject of more high-profile Supreme Court decisions than any other part of our elections system.

Traditional Redistricting Principles

Preventing a Districting from becoming a Gerrymander

There are a number of criteria that have been used nationally and upheld by courts.
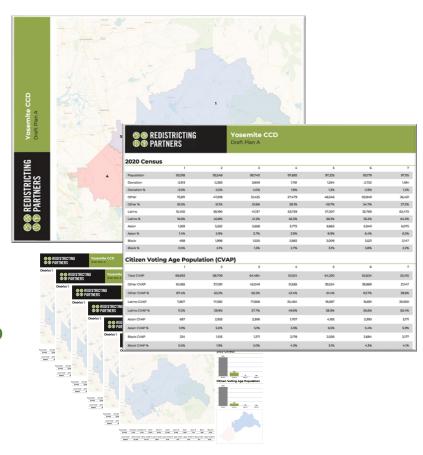

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain "*communities of interest*"
- Follow city and census designated place boundaries
- Keep districts compact – appearance/function

Draft Map Plans

Each draft plan is provided with both a PDF and Online Web-based format

- **Draft Map A – Minimum Change**

- **Draft Map B – Strengthen Latino Majority/Minority Seat**

- **Draft Map C – Minimum Change with two Latino Majority/Minority Seats**

What's Next

The committee can make use of these mapping options in a number of ways.

- **Identify preferred plan(s)** with an understanding that none of these are final plans. *It is an iterative process.*

- **Suggest possible changes** – Redistricting Partners can provide adjustments to the boundaries.

- **Put out for public input** – the public will be very willing to tell us where we got the lines wrong. Input is our ally in developing final plans.
