

Modern Campus 9/6/2023

Meeting Notes:

- Chris Zack and Linda Faciana will attend the Board meeting on September 13th to present the timeline and provide an update on where we are in the process.
 - Joe will forward Chris and Linda's email addresses to the Chancellor's office.
- Testing the templates will start following training. Training is tentatively planned for the week of 10/9 so long as there are no unforeseen delays.
 - Testing typically takes approximately 2 to 4 weeks depending on the time your team has to devote to testing.
- Questions from our developer:
 - What is the hierarchy structure for Yosemite?
 - The schools own the departments, and the departments own the programs. Each school owns at least 1 department, and each department owns at least 1 program. A department can only be owned by 1 school, but some degrees/certificates can have a secondary school/department.
 - Will there be anything different in the structure of the School template when used to create department pages?
 - The structure will be the same however the amount of content will vary.
- Pending Items from Yosemite:
 - Profile template.
 - Embed codes for the Program Highlights and Career Outlook sections on the Program template.
 - The site map for the shell site migration.
